

Welcome to **Arise Electric**, a leader in Residential, Commercial and Industrial electrical consulting & contracting company, based in Bangalore. We hope that you will find our profile informative and to learn who Arise Electric is, what we do, and how we do it.

Our experience as electrical contractors give us the ability to do the best job possible for our customers, including New Construction and Installations, New Electrical Systems, Electrical System Upgrades, Renovation and expansions. We handle electrical alterations, power wiring, control wiring and high voltage wiring. At **Arise**, we believe in doing the maintenance needed for every client and we have our emergency electrical services always ready and available.

Green Technology for Electrical Contractors is one of the most important of the 'cutting edge' technologies. At **Arise**, we know how to help you cut your carbon footprint and greenhouse emissions. We always recommend and practice **energy efficient concepts and designs**. When it comes to electrical technologies, we have learned to be forward-thinking, with our customers in mind, because our reputation as Electrical Contractors is composed of quality, dependability and integrity and we and our customers value this.

While executing even higher standards than the Electric Code, you can feel comfortable when Arise Electric is taking care of your electrical needs.

ALL WORK GUARANTEED. EXTENDED WARRANTY AND SERVICE PLANS AVAILABLE.
